

## Health & Safety Statement

### A GENERAL STATEMENT OF POLICY

The purpose of this Health and Safety Policy and Policy Documentation is to clearly define those personnel that are responsible for various aspects of Health and Safety. To identify and minimise any hazards or risks that employees may encounter whilst carrying out their normal working duties and to identify what action to take and what is required of all employees in the case of an emergency.

It is our policy to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees, and to provide such information, training and supervision as required for this purpose. We also accept our responsibility for Health and Safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the arrangements which we will make to implement the policy have been set out and in accordance with HSG65 and the Management of Health and Safety at Work Regulations 1999.

The policy will be kept up to date, particularly as the business changes in nature and size. To ensure this, the policy and the way it is operated will be reviewed every year.

This statement was approved by the Board of Directors

Karl Eade

Operations Director
